## Experience

Freelance web developer

Jan 2023 - Mar 2023

**Currently working on ServicioLibre web app:**

- Collaborating with a team to develop a service application that connects consumers with service providers.
- Designing and implementing key features of the application, ensuring they meet user needs and are scalable for future growth.
- Troubleshooting and resolving technical issues to ensure a seamless user experience.

Web developer

Jul 2022 - Oct 2022

**Responsibilities:**

- Developed a virtual 360 tour using Three.js and WebGL.
- Added interactive hotspots to the tour for user engagement.
- Optimized loading and smooth navigation implementing a tile-based system that dynamically loads and renders the necessary tiles based on the user's position and zoom level.

Frontend developer

Feb 2022 - Jun 2022

**Responsibilities:**

- Contributed to the development and maintenance of a visually appealing and user-friendly website for MaridajeClub's live product sales platform.
- Implemented the live video streaming system to enable customers to watch product demonstrations and make informed purchasing decisions.
- Collaborated with the frontend team to ensure efficient and effective development and deployment of new features and improvements to the platform.
